Portfolio | LeetCode
Kurnool, Andhra Pradesh

Professional Summary

Java Backend Developer and final-year Computer Science undergraduate (CGPA: 8.0), experienced in building REST APIs with Java 21, Spring Boot, Spring Security, and Spring Data JPA, including AI-integrated and real-time features using Spring AI and WebSockets. Applies Object-Oriented Design & Programming (OOP) and DBMS concepts through personal projects, with a strong academic foundation in Data Structures & Algorithms (DSA), Operating Systems, and Computer Networks. Solved 221 LeetCode problems, including 34 Hard, demonstrating consistent algorithmic problem-solving practice.

Education

B.Tech in Computer Science Engineering | CGPA: 8.0 2023–2027
- Rajeev Gandhi Memorial College of Engineering and Technology, Kurnool

Projects

AI Chat Application Apr 2026
Java 21, Spring Boot, Spring AI, Spring Security, JWT, WebSockets, React, MySQL GitHub

- Developed a real-time AI-powered chat application integrating **Spring AI** for context-aware conversational responses, with a React frontend and MySQL-backed conversation persistence.
- Implemented **Spring Security with JWT authentication and RBAC**, using **WebSockets** for real-time bidirectional messaging.
- Designed REST APIs following a **Controller–Service–Repository** architecture with centralized exception handling.

RentEasy – House Rental Platform Jan 2026
Java 21, Spring Boot, Spring Security, Spring Data JPA, JWT, React, MySQL, Razorpay GitHub

- Built a full-stack house rental platform supporting property listing, search, booking, and payment workflows, with role-based dashboards for tenants, property owners, and administrators.
- Integrated **Razorpay** for payment processing and modeled property, booking, and user-role relationships using **Spring Data JPA**.
- Secured REST APIs with **Spring Security and JWT authentication**, applying **Jakarta Bean Validation** for request-level input validation.

RGM Campus Connect Oct 2025
Java 21, Spring Boot, Spring Security, JWT, Spring Data JPA, React, MySQL, WebSockets GitHub

- Developed a centralized campus platform for student communities, placement updates, events, posts, and messaging.
- Used **WebSockets** for real-time notifications across posts and events.
- Implemented **Spring Data JPA** with transactional service-layer operations to manage student, event, and post data consistently.

Technical Skills

- **Programming Languages:** Java 21 (Core Java, Java SE), SQL
- **Backend:** Spring Boot, Spring MVC, Spring Data JPA (Hibernate), Spring Security, Spring AI, RESTful APIs, JWT Authentication, WebSockets
- **Databases:** MySQL, JDBC, Database Design
- **Core Java:** Object-Oriented Design & Programming (OOP), Collections Framework, Exception Handling, Multithreading
- **Core Subjects:** Data Structures & Algorithms, Complexity Analysis, DBMS, Operating Systems, Computer Networks
- **Frontend (Basic):** HTML5, CSS3, JavaScript, React
- **Tools:** Git, GitHub, Maven, Postman, IntelliJ IDEA, VS Code

Achievements & Certifications

- Secured a **Top 10 Position** in a college hackathon for developing and presenting a web-based backend solution in a team environment.
- **Xcel Club** – Vice Secretary
- **HackerRank** – Java (Basic) Skill Certification Jul 2026
- **HackerRank** – SQL (Intermediate) Skill Certification Jul 2026
- **Microsoft Azure** – Azure AI Fundamentals (AI-900) Mar 2025
- **EduSkills** – Java Full Stack Development Dec 2024
- **NPTEL** – Soft Skills Oct 2024
